Profile

Energy Engineering student pursuing B.S. at the Pennsylvania State University studying renewable energy and it's applications, with my main interest being Solar Energy and Technology. Background in website building platforms such as WordPress, Wix, and Weebly. Computer programming history: AutoCAD, Visual Studios C++, Python, NI Multisim. Languages: English speaker, and can read and write Arabic and French.

Other Interest

Entrepreneurship. On the side I am interested in fashion and entrepreneurship. I am currently working on my own clothing brand called Miliano Et Compagnie.

Skills

The skill scale is from 0 (Fundamental Awareness) to 5 (Expert).

Experience

- August/2018 **Wireline/Well Tester** FyreRok Consulting, W. Virginia/Various Locations
- Analyzed and tested gas wells for leaks, breaks in gaskets, and issues with assembly
 - Consulted well-tender on status of well (testable or not)
 - Tested gas storage wells by recording flow stream data with orifice plates
 - Ran 1-pt and 3pt tests (dependent on well-tender)
 - Input data into designated computer program to identify formation strength, temperature and pressure values of well
- July/2018
- Jun/2018 **Water Transport** Tetra Technology, Pennsylvania/Washington
- Rigged up iron piping and TETRA steel piping to water tanks pre-drilling
 - Maintained and tested piping for leaks
 - responsible for maintenance of gaskets
 - Monitored pump down tanks
